VOLUME 12, NUMBER 47.

WRANGELL, ALASKA, THURSDAY, NOV. 13, 1913

\$2.50 PER YEAR, 10c. PER COPY

Ketchikan Sports Get Some Good Hunting.

Two boat loads of Ketchikan sportsmen came up last Monday to get some real shooting over on our flats.

The first boat, the "Creel" with Fremont King, Geo. Ronsfelt, M. Van Zandt, Milo Hoadley, Sam Bathelameu and Happy Hinnie on board came in about 4 o'clock and left early next day with all on board except Geo. Ronsfelt. Later the Teddy came in with Ed. Williams, Collector of Customs Dobs Jim Smith all hunters who are now enjoying the fine shooting on the flats.

Tonic Goes North

A party consisting of Dr. Dawes, Chas. Duffy and J. J. Mc. Tague left last Tuesday evening on the Launch Tonic for Juneau, via the Rocky Pass and Kake Village. The Doctor has business to attend to at Kake and Juneau, however, he will hunt ducks and geese en route, thus combining pleasure with business. The party will return via Wrangell Narrows. They expect to be gone about ten days.

Wm. Lewis has let a contract for the papering and decorating of the interior of the Rink. The work will start soon which when finished will make as fine a place as could be found and much warmer than heretofore.

Bjorge - Swift - Nuptials

Yesterday at high noon at the Presbyterian Church which was beautifully decorated for the occasion occurred one of the prettiest wedding of the season, when Mr. J. G. Bjorge and Miss Bessie Swift were united in the Holy Wedlock by the Reverend J. S. Clark.

Just at High Noon the bridal party was ushered in to the strains of Lohengrens' Wedding March. Mr. Roy Cole gave the bride away. The Bride was charming in a gown of white satin charmeuse with a chiffon over dress of pearl beading, and wore a bridal veil with an orange blossom wreath, and carried a bouquet of roses.

Miss Leona Lindman who acted as Brides Maid wore a white shadow lace dress over white net and carried a bouquet of White Chrysanthemums.

The groom was attended by Mr. Allen Swift, brother of the bride, and were attired in the conventional black.

Immediately after the ceremony the bridal party was escorted to the home of the Brides Grandmother, Mrs. Lindhart, who had prepared a very dainty wedding breakfast, courses were laid for twelve.

The couple were the recipients of many handsome and useful gifts.

A grand ball was given in Red Mens Hall in the evening in honor of the bride and groom.

We join with the many friends of this popular couple in wishing them a long and happy married life.

Mr. and Mrs. Bjorge will make Wrangell their future home.

R. C. Church Bazaar

The St. Rose of Lima Sewing Society of the R. C. Church, will hold their annual Bazaar on Thursday Nov. 20th 1913, at the Redmen's Hall; consisting of Fancy and Candy Booth, Fish Pond and Cafeteria; and various games of amusement. The sale of fancy goods will open at 3 o'clock P. M. Cafeteria will open at 4 o'clock P. M.

Do not fail to pay a visit, as you will be assured a pleasant time.

No Admission.

The following Ladies compose the officers of the Society.

President, Mrs. P. C. McCormack; Vice " Mrs. Geo. Skelton; Secretary Mrs. S. LaBounty; Treasurers Mrs. E. A. Emery.

Territory of Alaska.

By the Governor.

A Proclamation.

The observance of a day of thanksgiving by the people of this nation has been an annual custom, having its beginning in the days of the Pilgrim Fathers, who thus early in the history of our country set apart a day for the giving of thanks to Almighty God for mercies vouchsafed and blessings bestowed upon them as strangers in a strange land. As such it has been again recognized by the President of the United States, and in accordance therewith I, J. F. A. Strong, Governor of the Territory of Alaska, do appoint Thursday, the twenty-seventh day of November, nineteen hundred and thirteen, a day of

THANKSGIVING.

And I recommend that upon that day the people of Alaska do refrain as far as may be from labor and unite in returning thanks to the Giver of all good things for the blessings bestowed and the favors received at His hands; for the peace that pervades the nation; for the prosperity that it enjoys; for the progress that the people of Alaska have made in the development of the bountiful resources of the Territory, and for the promise which the future affords for the up-building of a mighty commonwealth where life, liberty and the pursuit of happiness shall be fully assured to all. And while giving thanks for the blessings we enjoy, let us not be unmindful of those who may be less fortunate in life and remember that all are bound by the ties of a common brotherhood.

GIVEN under my hand and the Seal of Alaska, in Juneau, the Capital, this fifth day of November, in the year of our Lord, one thousand nine hundred and thirteen, and of the Independence of

the United States of America the one hundred and thirty-eighth.

J. F. A. Strong

By the Governor:

Charles E. Davidson,
Ex-officio Secretary of Alaska.

Obituary.

Grant Henry, was accidentally killed by falling over a bluff 80 feet high, on the night of Oct. 31, 1913, on Kuiu Island. He was making his way to camp through the dark forest and walked over the bluff to his death. The next morning his companions started to search for him and they hunted two days without success. They came to Wrangell and called for volunteers, eight men good and true responded to the call. After another careful search through woods and canyons they found his lifeless body at the foot of the bluff. It was a hard task to carry the body over rocks and through dense underbrush through the wilds of Alaska, and his body was brought to Wrangell, Nov. 6, 1913. On the Steamer "Spokane" is a casket containing all that is mortal of Grant Henry. He is making his last journey on earth. He is going home. He will be for a short time once more amongst the scenes of his childhood. Scenes he loved so well, but the eyes that once loved those scenes are closed forever. He will be once more amongst his dear relatives and friends but he will not hear their sorrow and pain. Grant Henry was an honest, moral, good man. Beloved by all who knew him. He was a fine specimen of American citizenship and a splendid type of the American workman. True to his calling, true to his friends and true to himself. In the short time Grant Henry has been amongst us here in Wrangell he has made scores of friends. He will be missed in many places in this community. We can't spare such good, clean men. But He who rules the heavens and the earth thought different. His will shall be done. The sympathy of this community goes with Grant Henry, to his relatives and friends, in this sad hour of misfortune and sorrow. May he rest in Peace.

Communications

To the business men of the city of Wrangell Alaska.

There are so many things that are necessary to make this city one of the real live ones in Alaska, that they cannot be enumerated at this time. Now that the Standard Oil Co. are handling their products here it will be up to the business men of Wrangell to see that this company gets a site where they may build their tanks. This will mean a great big thing to Wrangell. It will be the means of bringing the fishing fleet here to draw their fuel and lubricating oils, and that will not be all, it will mean a large sale of clothes and food stuff. Besides a large number of the fishermen will make this port their home. It will be up to the business men of Wrangell to see to the welfare of the fishing fleet and to the accommodation of boats while in port. We do not want to decrease our expenses. But we want to increase our income. In order to make business make business, get busy. You will hear from us from time to time.

Yours Truly,
A Subscriber.

The Alaska Steamship Company is planning to build two new boats to operate on the Southeastern Alaska run according to the Juneau Dispatch.

New Boxes At The Post Office

The growing population of Wrangell has made it necessary to install 66 new boxes at the Post Office this week. The growing business that the local postoffice is doing has made the equipment too small hence the installing of the new boxes which are right up to date U. S. combination boxes of two sizes, 54 of one size and 12 a size larger.

A Fake Alarm

The Fire boys were called out early yesterday morning and given a run to the south end of town. The fire was in the house of Mrs. Star but was out before the boys arrived and the hose was not unrolled from the carts.

Duckland Brings Cable From Wreck.

Peter Jensen and Art. Sorset made a trip to Warm Chuck on Hecta Island last week on the Duckland to bring in a load of cable from the wrecked Curacao. They brought in about 5000 lbs. of cable which will be shipped North.

The gasboat Albino left for Mill Creek for a few days yesterday.

It Is Not Unusual

for a woman to take several pairs of our shoes for fear such style and quality may not be obtainable again at similar prices. They are often right too. We think you'll be right also if you follow their example during this sale of fine, feminine footwear. Don't judge the claim extravagant until you see the shoes.

Donald Sinclair, Proprietor

The superior construction of the MONARCH is such that waste of heat is impossible. Every particle of fuel is consumed and the heat held captive until it does its full duty. The same splendid economical service which the MONARCH gives when new is retains through years and years of hard continuous use. That's why it's called the "Stay Satisfactory Range." The fuel economy of the MONARCH is economies in time and labor. Drudgery is replaced by pleasure, the housewives duties are rendered lighter—her results are better. A MONARCH will pay for itself over and over again in the saving of fuel and, as interest on the investment, will provide real cooking comfort for many, many years.

We recommend the MONARCH as we have every confidence that it will make good all our claims as it has always done.

When in doubt - tell the truth.

If a girl can see but one young man in a crowded ball room - that is love.

As long as the world goes around there will be some men who will be able to tell you how to run your business; women will be able to see the faults of their neighbors while faultless themselves; the weather will be either too hot or too cold, too wet or too dry; ice will continue to freeze with the slippery side up; the sun will continue to rise in the east and set in the west and the dissatisfied man will continue to be able to fill the public offices better than the man who holds the office.

Did you ever think of it? Suppose every business man took interest in the upbuilding of his town as the newspaper man. He works for a hundred and one things for the general good. He urges, pleads, scolds, badgers, and cavorts around generally until he gets whatever he lays out for. Imagine a newspaper man's feelings when some lame, springhalt kind of a fellow, and every town has them - reproaches him because he doesn't boom things enough. Nine times out of ten the same fellow has never paid one cent toward supporting the paper, and the paper he reads with marked regularity, is either borrowed from his neighbor or picked up from the counter, in the store at which he trades.

Evidence Wanted.
Hewitt: I want you to know that I have some Hewitt I never believe unconfirmed rumors. New York Press.

HOW A MOTOR "TALKS."

The Sympathy That May Come Between the Animate and Inanimate.

"One day my chauffeur was taken ill, and I drove myself in. left the car standing in a side street during the day, and drove home at night," said a suburbanite. "Then, for the first time, I began to sense the feeling of sympathy or mutual sympathy, if such an expression may be permitted between animate and inanimate things, between the machine and myself. Several trips by myself confirmed the sensation; then I bought another car for the family and now drive myself regularly in this one."

"I have often thought of the stories told by locomotive engineers in which their great engines are endowed with almost mental faculties. There are enough of them to fill a book, but I never considered them seriously until I began with this car. Sometimes the engine sings; sometimes it purrs. I know its 'sing' and its 'purr.' If anything is the matter with it it tells it in a language entirely intelligible to me. It responds to my lightest touch in all its functions, but once," and here his voice became grave, "it refused to run into an unlighted ditch where I was trying to steer it. I looked for half an hour for the trouble with the steering apparatus, but could find nothing wrong." - Suburban Life.

INSTINCT IN PLANTS.

Actions That Seem to Indicate Some Sort of Nervous System.

Plants sometimes appear to possess reasoning power. Charles Darwin instanced the case of the rootlet, which, piercing its way through the soil and detecting a stone or lump of hard clay in its path, will go round it without touching it. "How does the rootlet or plant know that the stone is there?" he asks. "Certainly it cannot see it and as it does not touch it cannot feel it. The avoidance therefore seems to be in the nature of perception of some kind which is a mental operation."

The species of mimosa known as the sensitive plant will contract its leaves even at the sound of a footstep, and when such a plant is being transplanted it crumples up during the process in such a way that it really appears to be suffering from fear. Afterward it recovers and resumes its ordinary mode of life.

Plants undoubtedly possess consciousness of a kind which enables them to carry out certain operations necessary to their preservation, and this can only be done through the possession of some sort of nervous system - London Standard.

BATTLES IN THE BLOOD.

Antitoxins Fight the Germs of Their Particular Disease.

When any animal has a certain disease its body produces large quantities of the particular antitoxin that will fight that disease. If the blood of this animal be introduced into another animal the latter will get the disease, but in a milder form, and will at the same time be stimulated to secrete large quantities of the antitoxin. It is now capable of resisting an attack by an army of powerful germs and becomes "immune" to the real disease.

If its blood be drawn and filtered to free it from red and white corpuscles the serum that is left is merely the watery part of the blood heavily charged with the antitoxins of that disease. This, injected into the blood of a person suffering from it, re-enforces the antitoxins already there and speedily routs the enemy by neutralizing the poisons that the toxic germs are liberating.

Serum is prepared in two ways - one by taking it from the blood of another animal, the other by a culture from the blood of the patient himself.

There are only one or two diseases that can be cured by medicine. In all others the medicine is given merely to stimulate the natural production of antitoxins. If we knew how to make an antitoxin for every disease we should have no more use for medicine. The number of diseases for which antitoxins are being discovered is multiplying year by year. - New York World.

FRISKY SENATE PAGES.

They Are Great Mimics and Discuss Burlesque Legislation.

They are the greatest mimics in the world. They can take off the idiosyncrasies and humorous peculiarities of the senators to a "T."

Sometimes when the senate is not sitting and too many visitors and page bosses are not around to observe the proceedings the pages themselves go into a solemn senatorial session. One will impersonate the vice president, another the chief clerk, and so on. Various other boys will pretend to be either their favorite senators or the senators of home states. Each boy occupies the seat to which the real senator is entitled.

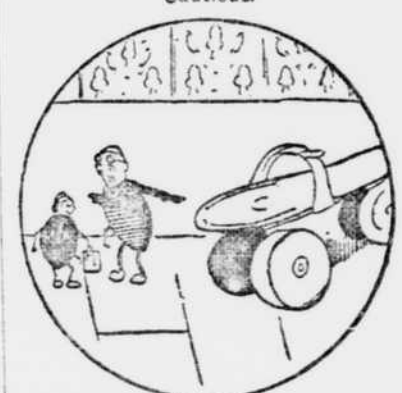

Banzel goes the vice president's cavel, and the extraordinary session of pages has convened. There is always an argument as to which senator shall be recognized when the regular order of business is reached. Every conceivable current subject is discussed, with a goodly sprinkling of "baseball legislation," which always carries with it a rider by which each page senator shall be entitled to an annual self-renewing pass for all the season's games.

A bill which is almost sure to be introduced is one which proposes to increase the salaries of the pages and shorten their hours of duty. - Robert D. Heine in Leslie's Weekly.

Luminous Seas.

The sea is often luminous on summer nights because the phosphoric acid contained in decaying jellyfish, being deprived of oxygen, is converted into phosphorus. This unites with the oxygen of the air and becomes luminous.

Cautious.

Mr. Beetle - Beware of these terrible motor buses, my boy! - Comic Cuts.

THE TOILET TABLE

graced with our cold cream, talcum powder, toilet water and other preparations is indeed a boon to women who care about their complexion and appearance. Furnish yours from our toilet department and you'll have the best in the land. To use them is a sign of cultivated taste.

of "What Happened to Mary" at The Rink Friday Night.

Hit Them Both.

"You remember old St. Collins, what used to be around here last season, don't you?" remarked the station master at Seabrook.

"You mean the chap that always had a way of doing things differently from any one else?"

"That's the feller," replied the station master. "Well, he committed suicide 'bout a month ago."

"Why, that's terrible! But did he do that differently too?"

"Differently!" ejaculated the station master. "Why, I should say he did. Say, that feller went out and bought a couple of quarts of gasoline, drank her down, then lighted up his old clay pipe and started smoking. The folks hereabout wanted to have services held over the remains; but, Lor', all we ever found was a section of St's old vest that somehow got kitched in a tree. Well, St was bound to do things different." - Chicago Record-Herald.

Checking It Up to Father.

That parents should exercise the greatest care in speaking of family secrets in the presence of little children was proved by the experience of a North avenue resident recently.

The man in question was visiting a maiden aunt, who is extremely stout and very sensitive about it.

A four-year-old boy who accompanied his father looked very carefully at the rotund form of his relative and then inquired, with a friendly smile:

"Aunt Myrtle, you don't have to put ashes in the bed to keep from slipping out, do you?"

Then when the man held up his hands in consternation the youngster exclaimed:

"There, papa; she says she doesn't." - Youngstown Telegram.

Fun In Space.

I dreamed last night that I was present at a committee meeting of the sun, earth, moon and stars.

"I'm no coward," said the earth. "No, but you have two great fears," said the sun hotly.

"And those are?"

"The hemispheres."

"You've forgotten the atmosphere," put in the moon. And the comet, who had no business to be there, wagged his tail with joy.

All roads lead to the rink.

Fred Wigg made a trip to the Garnet Ledge Tuesday.

There is a good show on at Bender's tonight.

St. Phillip's Choir have changed their practice night to Thursday.

The Home Baker has a new sign over his place of business.

Watch for the First Alaska legislature, they are coming to Bender's soon.

James Barnes of Craig was passenger over on the mail yesterday.

Robert Scott, knight of grip was in Wrangell several days this week.

WANTED—To Rent a sewing machine. Leave note at the Sentinel Office.

M. Marshall is having a addition built in the rear of his street property.

Miss Mary Loftus returned her position at Snow Pass the first of the week.

Geo. Linfield came in on the Dan from the wreck of the Chitao at Warm Chuck.

Fred S. Johnston has been commissioned as a Notary Public by the Governor of Alaska.

For Sale Cheap—All around gas boat. Antelope, in good condition. See owner, Wm. Lewis.

A good Show at the Rink Friday night, third installment of "What Happened To Mary."

The Columbia & Northern cold storage company shipped a car load of frozen fish south on the Spokane.

Don't forget the Moose Entertainment on Friday evening. All Moose are invited.

Fred Bronson came in from the McDonald logging camp at Anita Bay.

Ed. Kalkins returned from Ketchikan on the Dolphin yesterday.

N. McDonald came in with a boom of logs for the shingle mill yesterday.

W. G. Weigle, Forest Supervisor, is in town for a few days on business.

Master Johnnie Grant has been on the sick list for several days but is much improved today.

The dog-catcher has been working overtime lately ridding the town of all the stray canines.

The date of the R. C. Church Bazaar, which was announced last week for the 19th has been changed to the 20th.

The steamer Jefferson is laid off the run for a few trips and will be given a general overhauling in the meantime.

Business must be slack in Ketchikan. Geo. Rounselt is selling Fire Insurance in town this week.

A new pool room and barber shop was opened up the first of the week in the building adjoining the skating rink.

Many friends Wm. Cook will be pleased to learn that he is improving rapidly and expects to be back to Wrangell in the near future.

A new 28 inch wheel was installed on the Duckland the first of the week. With the new wheel Capt. Duckland says she is good for better than 10 knots.

Ed. Kalkins was a passenger to Ketchikan last week where he goes to have some dental work done as the local dentist is busy on the West Coast.

Mayor Geo. H. Barnes left on the Spokane for Redman, Calif. where he will spend the winter. The Mayor expects to be back about the first of March.

The body of Grant Henry who was accidentally killed by falling over an 80 ft. cliff while hunting on Kuiu Island, was shipped South on the Spokane to his brother-in-law W. J. Prather, at Salisbury, Mo.

Frank Spaulding returned on the Spokane from Seattle last Saturday. Frank left expecting to be gone all winter but says Seattle is too dead so had to come back to a live town.

Miss Elizabeth Pancraft of Ketchikan was a passenger over on the Dan yesterday. Miss Pancraft has spent the past two weeks visiting on the West Coast and will take the Dolphin south.

Joe Curl was a passenger South on the last Dolphin on his way to Boise, Idaho, where he will spend the winter with home folks. Before leaving Joe made himself good with the Sentinel for the Winter.

The Clatawa was put on the beach this week where she will be overhauled and the engine will be taken out and sent below for repairs so as to have her in shape for the coming season.

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.
400,000 words and phrases.

Big Steamer Makes Her First Call

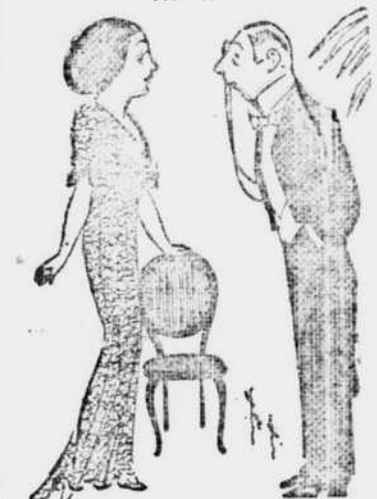

A new whistle awoke the sleepers along the waterfront early last Monday morning when the big liner Mariposa pulled up to the wharf. This is the start of the new schedule started by the Alaska Steamship Company whereby their big western route steamers will make Wrangell a regular port of call. We are glad to see this new line come to Wrangell as it will mean much for the growth of the city and the fact that they are much larger and faster vessels assures them of their share of the local business.

Judgment Still Normal.

Bill—I'm afraid to propose to her.
Tim—Has she offered you no encouragement?
Bill—Oh, yes! She gives me a hot whisky when I call, but one ain't enough.—Boston Globe.

Her Wish.

Peggy—Yes, I was going abroad, but I—aw—I changed my mind, you know.
Peggy—Well, I do hope you got a better one in the change.—St. Louis Globe-Democrat.

Murphy—Thin 'tis a liberal policy the smooth jawed young man said?
Casey—Yis. Sure, there are some very attractive individuals if I sit hurt playin' golf or polo or drivin' the own aeroplane.—Puck.

Those Band Instruments Again

Some of the citizens who donated money for the purchase of band instruments for a town band over a year ago, would like to know what has become of them. The town council should take possession of them as they are the property of the town and should be in the possession of the town.

Farwell Banquet

A stag banquet was tendered Jack Bjorge by the "Bachelors" of Wrangell at the Wrangell Hotel last Monday night. About thirteen bachelors were present and report a good time. The banquet was given as a farewell to Mr. Bjorge who was married yesterday to Miss Bessie Swift.

Ole Johnson is busy these days on his new house on Church street. When finished Ole will have one of the finest in the city.

WINCHESTER

**401 CALIBER
MODEL 1910
Self-Loading Rifle**

It Strikes
A Blow of 2038 lbs.

This new Winchester shoots a heavier bullet and hits a harder blow than any other recoil operated rifle made. It is more powerful than the .30 Army, of big-game hunting fame. The loading and firing of this rifle are controlled by the trigger finger. It

HITS LIKE THE HAMMER OF THOR
Send for illustrated circular fully describing this new rifle which has strength and power plus.
